Contact Information for Bethany Students:

We have dedicated one of our admission counselors, Courtney Mack, to handle any questions or concerns you have about attending Southeastern University. You can contact Courtney by phone at (863) 667-5428, by e-mail at ekmack@seu.edu, or on Facebook.

Tuition Plan Offer:

The total net price of what a student was paying at Bethany will be honored here at SEU for the first year. Tuition will be set by the Administration of SEU each year. This tuition rate may vary from year to year like many colleges and universities. Financial Aid awards may be similar each year, but future students aid will be based on the FAFSA and their families (EFC) Estimated Family Contribution.

A freshman will be able to apply for scholarships and grants. Some scholarships are one time and others are renewable. Each student can talk with a financial aid counselor about their award letter to determine which scholarships will be renewed each year.

BU students will receive the same net price for ministerial and/or missionary scholarships as they would be awarded at Bethany University, for the first year of attendance at SEU.

Athletic scholarships will be distributed by the athletic departments. Southeastern will put students in touch with coaches to see if any athletic funding is still available. Students can always tryout each academic year for athletic scholarship based on athletic talent.

Tuition rates for international students at Southeastern University are the same that a resident student pays.

Southeastern University’s Academic Commitment to Bethany Students:

- Southeastern normally requires our major core to be done at SEU; we will accept Bethany major core requirements under this agreement. With a comparable SEU degree, transfer credit will be applied so that a time frame can be established for degree completion.

- Southeastern University will honor this agreement in accepting transfer students from BU for three years (through August 2014).

Transfer credit policies for degree completion:
• **Undergraduate** – Southeastern will accept all regionally accredited college credits, and appropriately apply said credits to our degree programs whenever possible.

• We accept all grades of C or above; we do not accept developmental courses (below college level) for credit. We will accept all other college credits upon receipt of an official transcript from the originating institution, according to our transfer of credit policy, copied from our catalog:

  Credits earned at an institution accredited by a regional accrediting association are transferred on an unconditional basis with the exception of developmental, vocational, technical, or occupational courses.

  Southeastern University will normally only accept in transfer credits earned at an institution which is regionally accredited or complies with article one of this transfer policy. However, students who are transferring from an unaccredited institution may petition the Office of the Registrar for an exception to the policy by requesting that their credits be evaluated on a course by course basis. The student may petition by completing the Credit Evaluation Worksheet form in its entirety and submitting it to the Office of the Registrar.

  See the list of majors and minors in our traditional undergraduate program on the attached sheet, or access them via our website at SEU.edu.

  Note: Southeastern University’s education program is designed for the Department of Education (DOE) in the state of Florida.

• Non-accredited institutional credit will be evaluated course-by-course, by examining elements such as the syllabus, the course description, the professor’s credentials and classroom hours.

• The minimum amount of credits we will require a student to complete at Southeastern would be 12 credit hours in the major core. All transfer units must be of a grade of “C” or better.

• The deadline for transfer to Southeastern for the Fall 2011 semester is August 30, 2011.

• The deadline for receipt of official transcripts for transfer of credit is January 1st, 2012 for this fall semester.

• **Online** – Southeastern will accept all regionally accredited college credits, and appropriately apply said credits to our degree programs whenever possible. The same policies are followed in application of transferred credits to SEU programs.

• Majors that are offered online are:
  BS Criminal Justice
  BS Human Services
  BS Practical Theology
  BS Elementary Education
  BS Leadership
• Graduate – Southeastern will evaluate each transcript for optimal application to Southeastern Masters degree programs, striving to accept all applicable credits.

• Southeastern offers the following graduate programs:

  MA Human Services  
  MA Ministerial Leadership  
  MBA  
  MEd Elementary Education  
  MEd Educational Leadership  
  MEd Teaching and Learning  
  MS Professional Counseling  
  MS School Counseling  
  MA Human Services

Southeastern University’s Financial Commitment to Bethany Students:

There are several things Southeastern is doing to help Bethany University students interested in continuing their education at Southeastern. The university will provide a $1000 grant to offset travel costs. Bethany transfers will receive a 10% discount on their room and board for the 2011-2012 academic year. Southeastern is also waiving the application fee, and BU students’ net price will not exceed what they were paying at BU.
